

Sculptra®

All patients will see Consultant Oculoplastic Surgeon Miss Jane Olver for their initial assessment prior to undergoing any treatment.

Unless otherwise specified, all treatment will be carried out by Miss Olver.

Consultation	Cost
Initial assessment	£250

	Cost	
SculptEyes™ with Sculptra® & Restylane	1 Sculptra & 1 Tearfill™	£1500
	2 Sculptra & 1 Tearfill™	£2200
	2 Sculptra & 2 Tearfill™	£2900
	3 Sculptra & 2 Tearfill™	£3600
SculptVisage™ with Sculptra® & Juvederm	1 Sculptra & 1 Juvederm	£1500
	2 Sculptra & 1 Juvederm	£2900
Sculptra® (Poly-L-lactic acid) biostimulation	1 vial	£790
	2 vial	£1500
	3 vial	£2200
	4 vial	£2900

* Sculptra® is a biostimulator of the patients own collagen and is made from poly-L-lactic acid. Usually 2 – 6 vials are injected by cannula over 1 to 3 sessions, according to age. It is slowly reversible over 18 – 36 months.

* A combined approach of SculptEyes™, SculptVisage™, Restylane and Juvederm are used for facial, peri-orbital and peri-oral rejuvenation. All our fillers contain lidocaine as local anaesthetic.

* The above treatments options can be tailored for each individual patient's requirements and concerns. Where appropriate we can combine the above treatments with additional cheek or lip filler (as found on our separate 'Fillers' price guide).
